

Project Name: _____

Location (city/state): _____ Specifier/Architect: _____

Agency: _____ Contact: _____

FIXTURE DETAILS

Fixture Type: _____

Budget Price: _____

Quantity: _____

FIXTURE LOCATION

- INTERIOR - UL 1598 Listed
- EXTERIOR - Built to UL 1598 Wet Label Standards
No UL Listing Provided
- EXTERIOR - UL 1598 WET LABEL LISTED
Additional cost and lead time will be quoted to build, test and certify custom, exterior grade luminaires.

LAMP SOURCE

	Color Temp	Initial Lumens	Voltage	Dimming - specify dimming type	
	<input type="checkbox"/> LED			120-277	
<input type="checkbox"/> LED					
	Lamp Type	Wattage	Voltage	Quantity	
<input type="checkbox"/> Incandescent - specify base for LED lamps					

MOUNTING DETAILS

- Pendant - OAH: _____
(overall height from ceiling to bottom of fixture)
- Wall ADA Requirement
- Ceiling

PREFERRED MOUNTING METHOD:

- J-BOX
- Special Condition: _____
(backing plate, structural element, etc.)

Please describe the mounting surface *(rough, smooth; flat, curved, angled)*: _____

OTHER FACTORS TO CONSIDER

- Accessibility around the fixture to install, relamp, clean and service.
- Materials and Finishes

Please describe the intended visual surfaces whether for example painted, or a natural metal with a brushed, polished or antiqued finish. Glass/Acrylic that is clear, frosted, white, etc. Some materials may be dictated by the specific application; i.e. an outdoor fixture would not be constructed out of carbon steel due to corrosion issues.

All drawings are created using solid modeling software which generates 3D drawings of the design(s). In most applications, a 3D Model will be provided to the customer which can be rotated and viewed from various angles. While some projects require a physical sample fixture for review before final approval and production, a highly detailed, photo realistic 3D rendering can be generated in lieu of a physical sample. A sample for approval will be quoted as a separate line item and payment in full is required before commencement of manufacture.

- SAMPLE FOR APPROVAL *(additional cost and lead time)*
- PHOTO REALISTIC RENDERING AND 3D MODEL ONLY
