

Features

Diameter: 4"

Output: 93 LPW

Lens: White acrylic, 12"-96" (nominal)

End Caps: Aluminum

Mounting: Pendant

Driver: Inside canopy or remote

Weight: 2 lb/linear ft

Certification: UL listed for damp location use

Warranty: 5-year limited warranty

Photometry: Third-party photometric report

and IES files on the web site

- Power-over-Cable option
- RGB+W in standard lumen output range
- Mounting for multi-cylinder clusters
- Mount with field adjustable angled suspension

LED

Standard output static white LED is equal to the delivered lumens for model listings defined in the table to the right. White LED choices are 3000-4000°K.

Additional options (2200-6500°K) are available (consult factory).

MD Modify output within standard range in 5% increments up to 1610 lm/linear ft.

TW Tunable white is programmble between 2700-6500°K (consult factory).

WD Warm Dim ranges between 2200-3500°K (consult factory).

RGBW30 | RGBW35 | RGBW40 RGB + White LED lumen output is the same as static white LED as shown in the table

(consult factory for MD, TW, WD, and RGB+W options)

Lens (in.)	Max Weight	Standard Lumens	Output Watts
12	2 lbs	1,610	18

Driver | Voltage

Drivers are inside canopy, DIM, DIM.1, DALI, DMX are Class 2 constant current, Universal 120-277 VAC and include 0 - 10V dimming, 1-100%. TRC driver rated 120 VAC.

Consult factory for DMX commissioning with RGB+W LED's, and for DALI dimming control options.

Standard Mounting

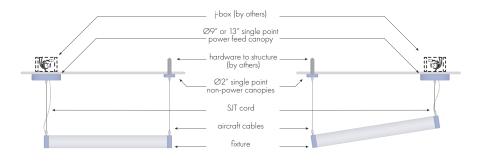

Luminous Cylinder is suspended in horizontal orientation with straight cables attached to a single point $\varnothing9''$ power feed canopy and a $\varnothing2''$ non-power canopy.

Standard options include AC 10, AC 15, AC 20 adjustable cable(s); consult for additional lengths.

(for vertical mounting options, please see LC4-VER spec sheet)

Luminous Cylinder | \emptyset 4" | Horizontal

AC-POC (power-over-cable)

Provided with a powered suspension system to suspend and power Class 2 LED lighting fixtures with a thin cable, providing a refined, modern look without the need for a separate power cord. Delivered with 100" adjustable cable(s) standard, and the driver is mounted in an enclosure (supplied by others).

Consult for submittals.

Options

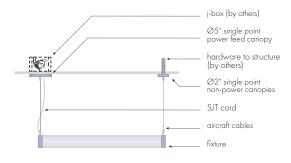

RMT (remote driver)

Remote driver is mounted to an aluminum plate (by Lumos) to be placed inside an electrical enclosure (by others).

RMT-BBU (remote driver battery backup)

Emergency backup battery is connected to each driver, which operates for 90 minutes. Test switch and LED indicator included. When RMT-BBU is selected, batteries and drivers are mounted by Lumos to an aluminum plate (enclosure by others).

DIM, DIM.1, DALI drivers are rated 120-277 VAC. TRC drivers rated 120 VAC.
