

RM42-UP-DN-EXT

Modular Fixture System | Indirect | Direct | Exterior

LUMOS
Architectural Lighting

EXTERIOR PROFILE WITH
MASSIVE CAPABILITIES

Features

Profile:	2.625" w X 4" h
Output:	85 LPW
Housing:	Extruded and formed aluminum
Lens:	Transmissive, frosted acrylic
Mounting:	Pendant, and catenary
Driver:	IP67
Weight:	3 lb/linear ft
Certification:	Wet listed (for use under canopy)
Warranty:	3-year limited warranty
Photometry:	Third-party photometric report and IES files on the web site

- Single circuit only
- Continuous rows available
- Custom shapes available
- RGB+W in standard lumen output range
- Catenary mounting option

LED

IP67 sleeved LEDs

- SO**
- Standard output static white LED is equal to the delivered lumens for model listings defined in the table to the right. Standard white LED choices are 3000-4000 °K. Consult factory for additional options within range 2200-6500 °K.
- HO**
- High output static white LED is equal to the delivered lumens for model listings defined in the table to the right
- MD**
- Modify output within standard range in 5% increments up to 1125 lm/linear ft.

RGBW30 | RGBW35 | RGBW40 RGB + White LED lumen output is the same as static white LED as shown in the table.
(consult factory for RGB+W options)

Fixture Ø (in.)	Max Weight	Sections per Ring	Standard Output		High Output

Driver

IP67 remote drivers

- Drivers are Class 2 constant current, Universal and include two-wire 0 - 10 V dimming, 1-100%.
- Delivered lumen output values can be programmed to lower values than shown in 5% increments.
- Consult factory for DMX commissioning with RGB+W and for DALI dimming control options.
- Remote and backup battery options available (p.7).

MCC (multi-cable center canopy) must be combined with **SMC** option

Rings are suspended with multiple angled, 100" field adjustable aircraft cables attached to a central power feed canopy. Cable angle should not be greater than 45° (see diagram).

Consult factory for ring diameters greater than 96".

MCC Standard Mounting Details

Fixture Ø (in.)	AC Cable Qty	Min Hang Hight (over 45°)	Standard Output		High Output	
			Canopy Size	Power Cord Qty	Canopy Size	Power Cord Qty

CAT (catenary mounting)

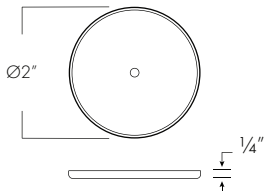

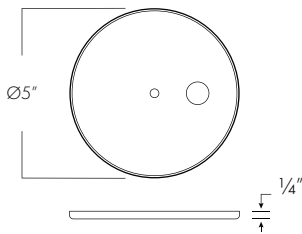

Rings are suspended from eye bolts with straight, field adjustable catenary cables individually attached to catenary rigging (by others). Seismic bracing cables are also available. Drivers located remotely wired and mounted to an aluminum plate (enclosure by others).

Consult factory for custom mounting options

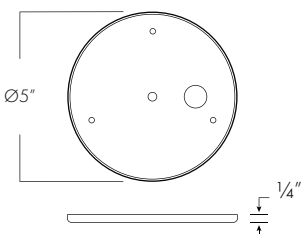

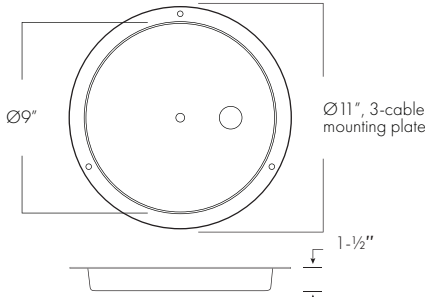

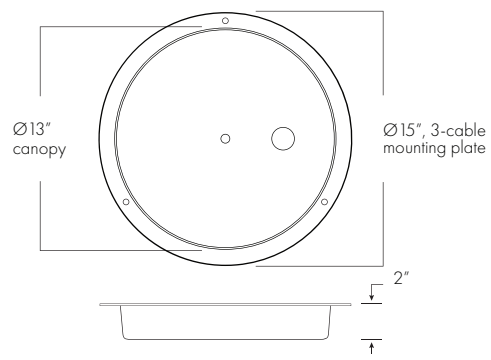

Canopies

SPC (single point canopies)

	
Non-Power	Power Feed

Canopy | Cord Finish

Canopy finish options include powder coat in standard or custom colors. When RAL or custom colors are applied to fixtures, canopies may be custom finished to match. 4-digit RAL color code or color chip must be provided.

While choosing a canopy finish, choose a power cord color.

SJT Cord

CCW	CCL	white
CCB	CCL	black

Match with RAL (RALX) or custom color (CCL) fixtures

Options

RMT (remote IP67 driver)

Remote driver provided w/IP67 enclosure

BBU

Emergency backup battery is connected to each driver, which operates for 90 minutes. Test switch and LED indicator included. When BBU is selected, batteries and drivers are mounted to an aluminum plate (by Lumos).

DIM, DIM.1, DALI drivers are rated 120-277 VAC; TRIAC/ELV drivers are rated 120 VAC.

RCX (X = radius)

Rounded corners are available in 6, 12 and 18" radius. Consult factory for custom sizes.

SMC

Seismic cables attached between the light fixture (typically large or heavy pendant fixtures) and the building's structural components—like beams or the ceiling deck. Recommended for areas prone to earthquakes.
